DVDBOOK & DVD

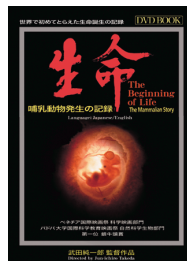

ICAM CO., LTD. have produced the movies of the life science, medicine, and biology as well as broader cultural projects with microscopic images since the established in 1968. Now we start publishing and sale our works as DVDBOOK. We hope you enjoy.

Where did you come from?  
The history of the creature should be written down in the chromosome.  
Dr. Toshihide Yoshida, National Institute Genetics, pursued two kinds of rat chromosome. He founded that the line of distributions between them was coincided with the line of snowy area 50cm deep. His further studies shows how rat was evolved and it's ranged in human history.

## History of the Rat Inscribed in the Chromosomes

[specification] 158 x 215 mm (DVD and Book with Box Case)  
[DVD : 34min./Japanese/English/NTSC]  
[Booklet : 72page/Full Color/Japanese/English]

[price] ¥2,800(tax excluded) ISBN 978-4-900960-32-9

We have started relationship with bacteria from when we were born. It is said that 100 trillions symbiotic bacteria in our intestine. What is that relationship between symbiotic bacteria and us?  
This movie for the 30th anniversary of the Japan Bifidus Foundation.

## The Beginning of Symbiosis

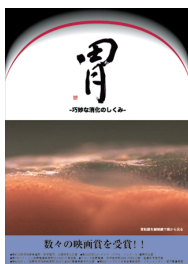

[specification] 158 x 215 mm (DVD and Book with Box Case)  
[DVD : 32min./Japanese/English/NTSC]  
[Booklet : 80page/Full Color/Japanese/English]  
[price] ¥20,000(tax excluded) ISBN 978-4-900960-31-2

Where did we come from and by what journey? We wish to answer about the origin of our life, scientifically based on respect of life. Live sperms and egg, the moment of fertilization, rolling of fertilized egg, implantation on the womb. We are following the journey of life with the beautiful images by microscopic filming and the soft touch animation. This is the long seller for the sex education.

## From Egg to Human Baby

[specification] 158 x 215 mm (DVD and Book with Box Case)  
[DVD : 24min./Japanese/English/NTSC]  
[Booklet : 40page/Full Color/Japanese/English]  
[price] ¥3,800(tax excluded) ISBN 978-4-900960-28-2

Why the stomach never digest itself?  
Approach to the mystery finding, the Scientific documentary film. Searching the drama of digestion, using various bio-imaging, the film finally recorded its elaborated dynamic images between gastric acid and mucus secretions. The film successfully captures the image of its complex and elaborated gastric acid secretion repeated in every meal.

## The Stomach -The elaborate mechanism of digestion-

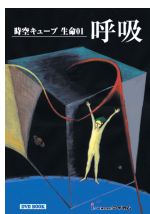

[specification] 158 x 215 mm (DVD and Book with Box Case)  
[DVD : 14min./Japanese/English/NTSC]  
[Booklet : 32page/Full Color/Japanese]  
[price] ¥3,000(tax excluded) ISBN 978-4-900960-22-0

Aobe located upstream of the Ohi, where we friends of Komonken play together every summer for over 30 years. As ordinary camp so, someone is getting lost and someone searches him. Everyone seriously play and seriously quarrel. We enjoyed filmmaking too. And we anybody are not volunteers. Everybody has each different personality. There are likes and dislikes mixed up. And then, Aobe camp has been continued forever.

## AOBE Woahhhs

[specification] (DVD in Jewel Case)  
[DVD : 108min./Japanese or English/NTSC]  
[price] ¥4,500(tax excluded)

## "Spacetime Cube Monade"

The series totally captures all images unfold in time and space axis through the story with 3D cubic world. **01 Breath** and **02 Digestion** have been released now.

Japanese version have DVD and Booklet with Hardcover Case.  
**01** [DVD : 34min.] [Booklet : 90page/Full Color]  
[price] ¥3,334(tax excluded) ISBN 978-4-900960-21-3  
**02** [DVD : 43min.] [Booklet : 104page/Full Color]  
[price] ¥3,619(tax excluded) ISBN 978-4-900960-25-1
